About The Class

This course is designed to provide students with investigative techniques, knowledge, and understanding to respond effectively to the unique challenges encountered in child abuse cases. This course is GRAPHIC and involves topics that involve children being physically abused. Focus will be on recognizing when a child's injury or illness is caused by abuse. There will be numerous photographs and discussion on a variety of child abuse injuries. This includes burns, shaken baby and understanding the crime scene. Current Washington State law will be reviewed on child abuse investigations to include protocols. During the second day of class child deaths will be reviewed and evidence discussed, several actual burn cases and murder child abuse shaken baby cases will be reviewed. In addition Battered Child cases will be presented and discussed. State-of-the-art techniques will be discussed to include medical terms, and suspect interviews. The students will receive a certificate upon completion of this program that includes a written and practical evaluation of information learned.

This course is designed for law enforcement officers, first responders and detectives. The course is an in depth look at child physical abuse and understanding how to complete a case from beginning to end. After students finish this course they will be provided with class material, interview forms and will be enrolled in several child abuse organizations.
